

How change all system proxy in one line

```
export http_proxy=http://10.203.0.1:5187/  
export https_proxy=$http_proxy  
export ftp_proxy=$http_proxy  
export rsync_proxy=$http_proxy  
export no_proxy="localhost,127.0.0.1,localaddress,.localdomain.com"
```
